GNOME 42

The Desktop of the Future

Get things done with ease, comfort, and control. Introducing Video

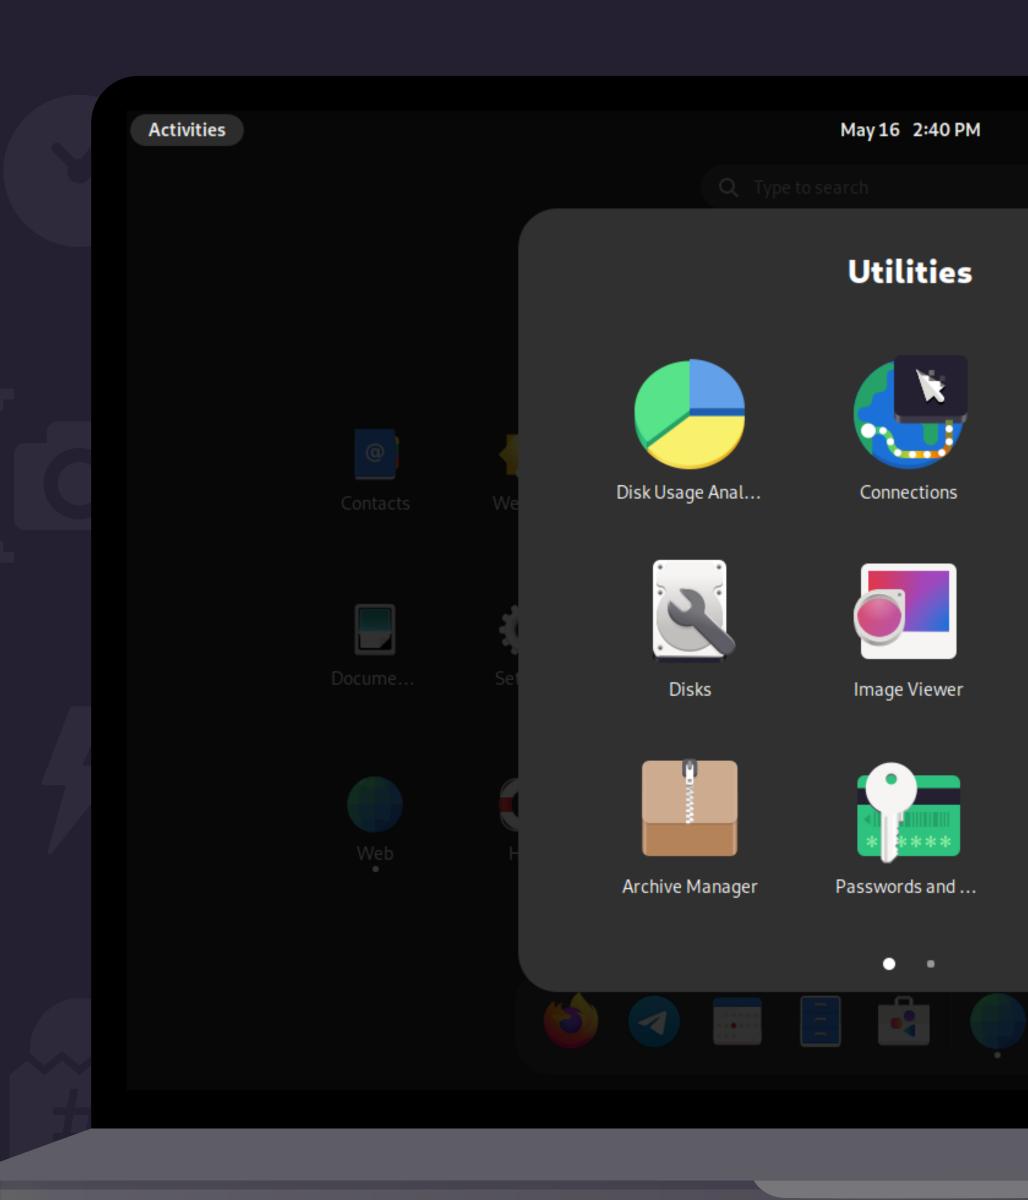

Every part of GNOME has been designed to make it simple and easy to

Simple and Easy to Use

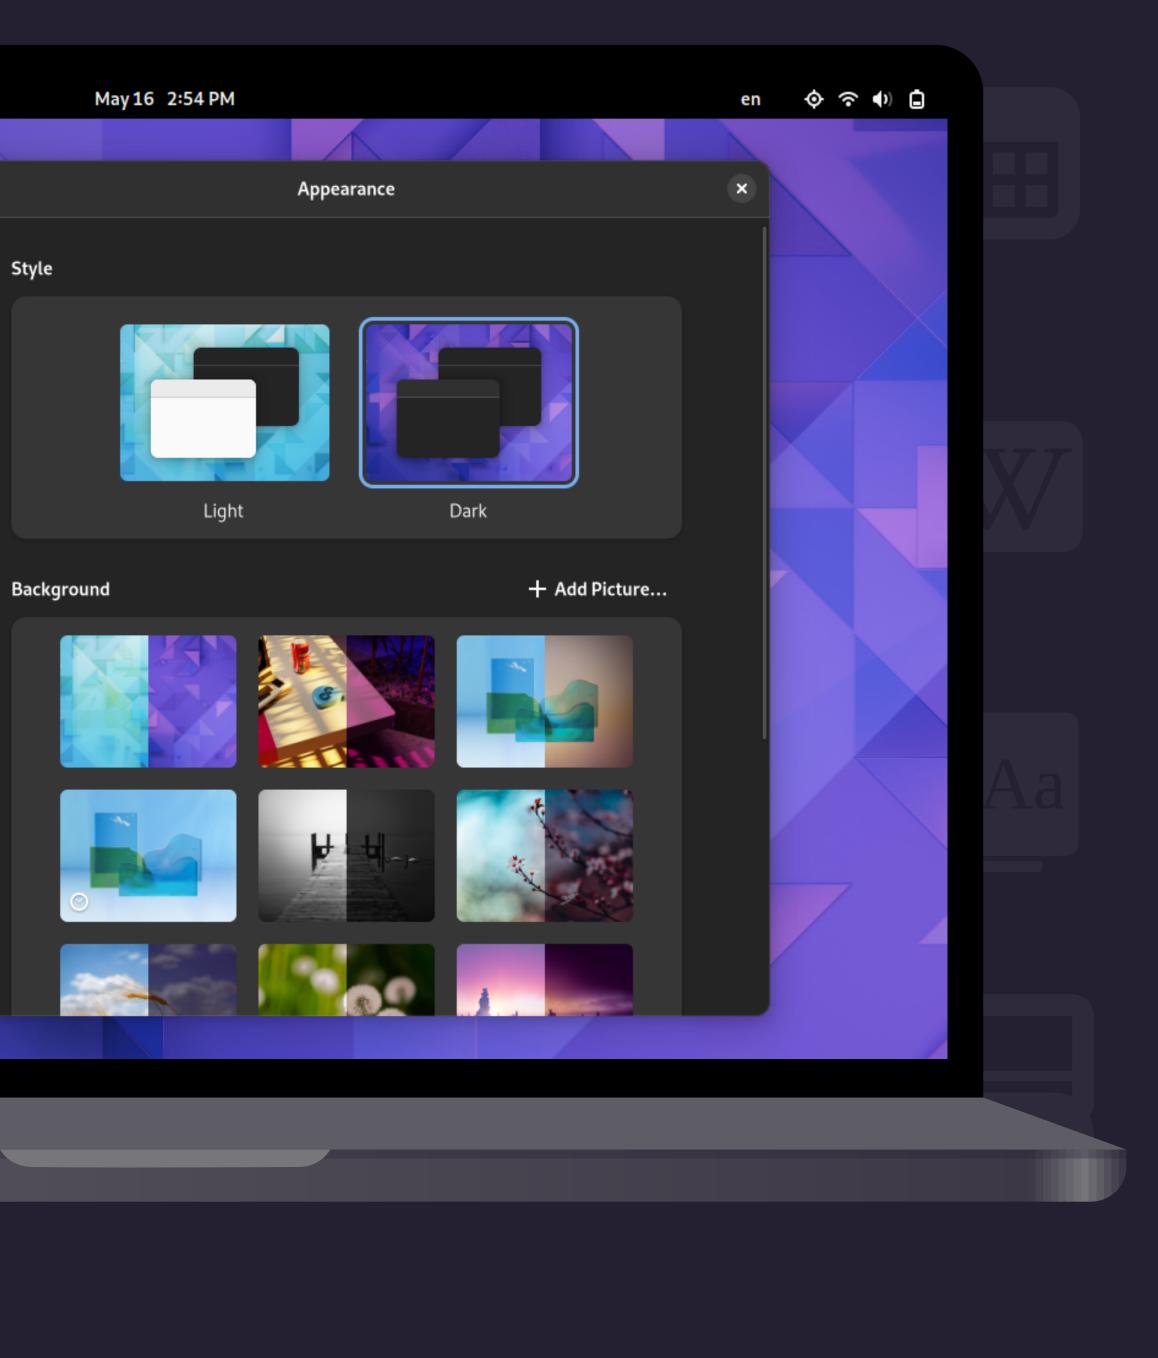

use. The Activities Overview is a simple way to access all your basic tasks. Having everything in one convenient place means you don't have to learn your way around a maze of different technologies

Intuitive and Efficient

packed with features that will make you more productive: a powerful search, side-by-side windows, seamless integration with online accounts, and a messaging system that comfortably deals with notifications.

GNOME provides a environment that helps you get things done. It is

Every aspect of GNOME has been crafted to fit together as a

Finely Crafted

harmonious whole, providing a consistent and integrated experience. Our attention to detail means a smooth and polished product that lets you do the things you want without getting in the way. GNOME is satisfying to use and beautiful to behold.
